

## 100% Positive Material Identification

*The industry leading quality system just got better.*

T.I. Medical offers 100% PMI testing of our global service center inventory guaranteeing absolute dependability to customers requesting this service. T.I. delivers an economical product throughout the medical supply chain with on time delivery you can count on. We are proud of our wide range of global OEM and subcontractor quality approvals as well as our award winning service.

### Global supplier to manufacturers of:

- Orthopedic Implants
- Bone Screws
- Dental
- Trauma
- Fixation
- Maxillofacial
- Spine

### Popular Stock Alloys:

All T.I. mill product is 100% traceable to its approved melt source.

#### Titanium & Titanium Alloys

- Ti Grade 1, 2, 3, 4
- Ti 6Al-4V ELI
- Ti 6Al-4V
- Ti 6Al-7Nb
- Ti 6Al-4V STA

#### Specialty Metals

- Co-Cr-Mo (CCM)
- 316LVM
- SS 17-4PH
- 316L
- 455

#### ASTM Specifications

- ASTM F67: *Unalloyed titanium for surgical implants*
- ASTM F136: *Wrought titanium 6AL-4V ELI Alloy for surgical implant applications*
- ASTM F1472: *Wrought titanium 6AL-4V Alloy for surgical implant applications*
- ASTM F1537: *Wrought Co-Cr-Mo Alloys for surgical implants*
- ASTM A564: *Stainless 455 for medical applications*

### Product Forms: (Ready to add products upon request.)

- Bar (Precision ground, special tight tolerance, and h9 available)
- Forged/Rolled Rectangle
- Sheet
- Billet
- Wire
- Plate

**ISO 9001:2008 Registered, ISO 13485 Compliant, and now 100% verified.**

## Ti Global Service Center Network
