REACH Statement of Compliance

Registration, Evaluation, Authorization, and Restriction of Chemical Substances

REACH for Solid Product Forms

Titanium, Stainless Steel, Nickel Alloys, Aluminum Alloys, Copper Alloys, Cobalt Chrome, Specialty Steels

Substances: On their own or contained in metals and preparations up to and including ingot.

Ingot: An as cast shape at which all product forms initiate. Chemical composition is important but the ingot geometry is irrelevant.

Mill product forms or shapes: Once the ingot is hot worked into bar, billet, plate, sheet, extrusions, castings and processed into the ultimate final form it has “article” status as defined in EC Regulation 1907/2006

Registration: The metal product forms we supply are considered “articles” and are not subject to registration at the distribution level.

Compliance: The June 14, 2023 list of 235 substances of Very High Concern (SVHC) as defined in Article 33 (1) and (2) EC Title VII, Chapter 1 Article 57 do not exist in metals sold by Titanium Industries Inc. in any product forms noted on this statement.
